

nume first name lastname

Date of birth: 14/03/2022 | Nationality: Danish | Gender: Other | Phone number: (+359) 321321321 (Work) |

Email address: email@email.com | Facebook: www.link | Address: dsadsa, sd, Czechia (Home)

● WORK EXPERIENCE

17/02/2008 – 18/03/2011

SENIOR JAVA PROGRAMMER

Applied JAVA OOP concepts to introduce additional functionality for a bottom-up bill-of-materials tree traversal & reporting tool reducing run-time by 70+%.

Optimized the landing page through the reduction of unnecessary calls to the back-end inturn reducing startup time by 50%.

Architected & developed a process for transferring configuration data from one software system to a separate system database utilizing a centralized web service later improving on it to transfer only changes speeding up the whole system by 90+%.

- Streamlined critical production tickets for same-day emergency releases reducing major customer impact & improving productivity by 40%.

18/03/2012 – 08/03/2019 Belgium

PHP DEVELOPER

Utilized OpenGL ES, hardware acceleration & optimizations based on a custom built framework & toolchain to develop & update a 2D & 3D graphics-intensive real-time rendered Android application in Java & C++ enhancing performance by 150%.

Implemented widescale application testing on multiple android targets uncovering 20+ issues.

Collaborated with the backend team to construct & optimize various complex algorithms improving performance by 70+%.

● DIGITAL SKILLS

Microsoft Office | C, C++ C# | Javascript(Nodejs, Expressjs)

● EDUCATION AND TRAINING

18/07/2014 – 17/08/2017

APPLIED COMPUTER SCIENCE West University of Timisoara

● ADDITIONAL INFORMATION

DRIVING LICENCE

Driving Licence: B

PROJECTS

08/07/2023 – 04/10/2028

QuantumTask Manager Technology Stack: Quantum Computing, React Native, Node.js, MongoDB

- Description: Enter the realm of cutting-edge computing with QuantumTask Manager, a revolutionary task management app powered by quantum computing. Leverage the power of qubits to handle complex algorithms, ensuring ultra-fast task prioritization and scheduling. The app seamlessly integrates with everyday devices through a React Native frontend, while the backend, powered by Node.js and MongoDB, ensures secure and scalable data management. Explore a new dimension of productivity as QuantumTask Manager transforms the way you organize and execute tasks.

12/04/2012 – 19/04/2017

SmartHealth Companion Write here thTechnology Stack: Artificial Intelligence, Python, Django, TensorFlow, Mobile Health (mHealth)

Description: Introducing SmartHealth Companion, an intelligent health management app designed to redefine personal wellness. Utilizing advanced artificial intelligence and TensorFlow, the app analyzes user health data to provide personalized insights and recommendations. Built on a robust Django backend, SmartHealth Companion ensures secure data handling and integrates seamlessly with various mHealth devices. Experience real-time health monitoring, personalized fitness plans, and proactive health suggestions, all backed by the latest advancements in AI and health technology. SmartHealth Companion is not just an app; it's your companion on the journey to a healthier lifestyle.e description...
